

LIFEINDEXAIR

LIFE INDEX-AIR management tool

Version 3.0

Deliverable B1.1

March 2021

THIS PROJECT IS FUNDED BY THE LIFE PROGRAM FROM THE EUROPEAN UNION

WWW.LIFEINDEXAIR.NET

The LIFE Index-Air management tool was developed in the framework of the LIFE Index-Air project (LIFE15 ENV/PT/000674), aiming to cover the gap between ambient air quality management and real-life exposure of urban populations and related health risks. It aspires to provide policy makers with the means to assess citizens' exposure to PM and related health effects, as well as to evaluate the effectiveness of selected air pollution mitigation measures with respect to ambient air quality, population exposure and the protection of public health. The tool also aims to enhance the knowledge of the general public on PM pollution, its sources, means of exposure and health effects and to raise awareness regarding the adoption of sustainable and environmentally friendly practices in our everyday lives.

The LIFE Index-Air management tool is accessible through the following website:
